1. Drill holes in the center face and both PCB surfaces for power wire feed.
   Drill holes in the center face of the channel and mount to surface with screws.

2. Insert Ribbonlyte (B) and make all necessary electrical connections (C).
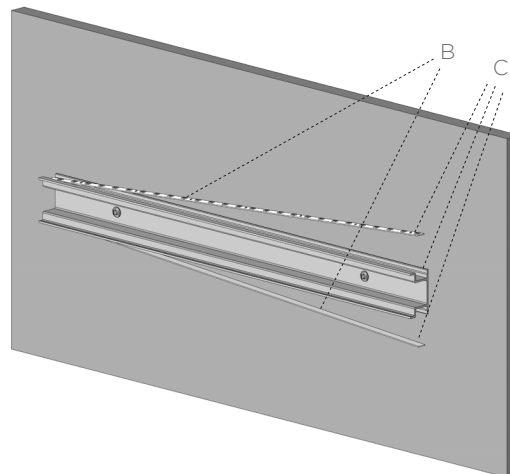

3. Attach lenses (D).

4/5. Place the front cover (E) over the mounted wall fixture and fasten both end caps (F) to the front cover with screws.

6. Installation complete.
