WARM DIM RIBBONLYTE

100% 2900K	**75%** 2700K	**50%** 2450K	**25%** 2225K	**1%** 2000K

Tight LED spacing minimizes or even eliminates hot spots (depending on channel/lens used)

Warm white at full brightness that gets even warmer as it dims, just like an incandescent lamp!

• 5.2 W/ft at full brightness

• 310 lm/ft - just less than 4.4 Static White RibbonLyte

All the qualities of incandescent light with the energy efficiency of LEDs

• Works with standard 0-10V dimmer or dimming system

• Cuttable every 3.94 In (100mm)

Dual chip LEDs allow dimming from 2900K at full brightness down to 2000K with excellent color mixing as you dim

• 24 VDC Voltage

• Ideal for coves where warm ambient lighting is desired
