

SURFACE MOUNTED CHANNELS

Acolyte offers an amazing selection of surface mounted channel options at a wide variety of widths, heights and beam angles. Our aluminum extrusions can be custom cut at any length. We offer several optic diffusion lenses: clear, frosted or milky lenses, and several specialty options such as prismatic lenses, raised lenses and black lenses that help camouflage unused fixtures. Finish your channel in a standard silver, black or white or choose any powder coated custom color. Excellent heat sinking keeps everything running cool. Mount with screws, simple clips, tilttable stands or magnets. Create stunning custom fixtures with your favorite channel and our premium RibbonLyte products.

HOUSING FINISHES

*Additional fee applies

AC4 and AC5 channels only available in silver finish.
