

PERCEPTION PENDANT SERIES

The Perception Pendant Series offers customizable 24V pendants in five nominal lengths* ranging from 2 ft (609 mm) to 8 ft (2409 mm). Perception Pendants are direct lighting pendants that offer a choice of premium optics to create the perfect beam of light for your application. Pick from 60° louvers, Asymmetric lenses or milky diffuser lenses. The flexible Perception Pendant Series also allows us to build complementary recessed, mud-in and ceiling mounted fixtures. The larger Perception Plus pendants let you choose direct or direct/indirect lighting and pick from 60° louvers or milky lenses, all with complementary sconces.
