

RGBWW 5-in-1 RIBBONLYTE

RGBWW 5-in-1 RibbonLyte is a special color changing ribbon controlled with DMX. Each diode uses five separate chips (red, green, blue and both warm white and cool white) to provide advanced color blending. Two tunable white LED chips (2400K and 6500K) deliver varied levels of warmth and brightness. RGBWW Five-in-One RibbonLyte offers superior pixel density and short cut lengths for creating unique custom fixtures.
