

DMX DISPLAY

The DMX Display is a stylish 7-in. (178 mm) wall mounted touch screen that works as a remote for our 2 Universe and 6 Universe DMX lighting controllers. The DMX Display offers built-in applications that create an exact replica of your DMX lighting controller on your smart phone or tablet over Ethernet or WiFi, and lets you customize your controls by adding buttons, faders and color wheels or even timeline-based programming.

- Wall-mounted touch screen remote control
- Use with 2 Universe or 6 Universe DMX Controllers
- 3 built-in applications
 - Arcolis Remote provides a mirror image of your lighting controller on your smartphone or tablet, plus a grid of scene buttons
 - Arcolis Remote Pro lets you customize your controls by adding color wheels, faders and more for your tablet or smartphone setup
 - Arcolis Designer incorporates a powerful timeline-based lighting programming system
- WiFi & Ethernet connectivity
- Screen: 7 in. (178 mm), 1024x600
- Android operating system

2 Universe DMX Controller
