

24V **NEW**

RetroRayz PRO

RETRORAYZ PRO LED light bars are self-supporting high-strength rigid extrusions that provide the most cost-effective flicker-free solution for replacing outdated fluorescent lamps in cabinet and box signs. A quick, easy retrofit lets you switch to 24V constant current LED technology. RetroRayz PRO's best-in-class efficacy and industry-leading brightness combine to make it the world's brightest LED light bar product where four 8-ft double-sided bars can be run on a single 100W power supply!
