

NANO FLEX RGBW

PIXEL DUAL-BENDING WALL GRAZER

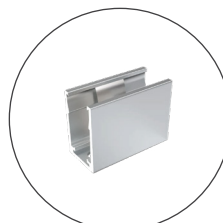

The Nano Flex RGBW is a large 24V color changing flexible silicone grazer tube. Nano Flex RGBW is available with warm or cool Static White CCTs (2700K or 6500K) for varied brightness. Program it by the pixel. Dual bending capabilities (side- and top-bending!) make it an amazing solution for complex color changing grazer applications in hospitality, landscape and architectural settings. Choose from end, side or bottom power feed. Compatible with DMX controls.

UL **CE** **RoHS** **IP67** **IK07**

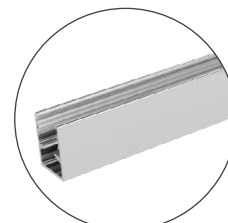

FEATURES:

- 7.6 W/ft (25 W/m)
- RGBW (2700K, 6500K)
- 355 lm/ft (1165 lm/m) all on
- Programmable pixels (9.84 in. | 250 mm)
- DMX controls
- 7 LEDs/ft (24 LEDs/m)
- 1.64 in. (41.67 mm) LED spacing
- 16 ft 4.85 in. (5 m) max. length (single feed)
- 5.9 in. (150 mm) minimum bending radius
- Beam angles: 25x25°, 30x30°, 40x40°, 50x50°, 25x50°, 45xAsymmetric 30°
- IP67 and IK07 ratings
- Available in white or black housing
- Use with mounting clip, mounting channel, curved mounting channel, tiltable stand
